**Miami, FL, May 12, 2026**— **Edye**, HITN's Spanish and Portuguese-language preschool platform for US and Latin American audiences, today announced that **Stomp! Stomp! Rhinos! (Rinoaventuras)**, a preschool series centered on emotional wellness and social-emotional learning, will join its platform through an agreement with **OAK9 Entertainment**.

**Stomp! Stomp! Rhinos!** follows Rhino siblings Noah, Ela, and Ron as they navigate everyday preschool experiences, learning to understand and manage big emotions through storytelling, music, and playful mindfulness. Designed to connect with preschoolers and their families, the series integrates entertainment and emotional wellness while offering actionable tools to foster healthy emotional growth. Through vibrant animation and engaging stories, families are encouraged to "Do the Stomp!" together — making social-emotional learning a joyful, shared experience.

"This acquisition underscores our commitment to delivering content that is both entertaining and educational for families," said **Erika Vogt-Lowell, Vice-president of Content at HITN**. "**Stomp! Stomp! Rhinos!** speaks directly to the values at the heart of **Edye** — helping children build emotional resilience while having fun."

"**Edye's** reach across US and Latin American audiences makes this partnership especially meaningful to us," said **Mindaugas Jokubaitis, Producer at OAK9 Entertainment**. "The Latino community represents one of the fastest-growing preschool audiences in the US, and having a trusted platform like **Edye** bring **Stomp! Stomp! Rhinos!** to Spanish and Portuguese-speaking families is exactly the kind of purposeful distribution we envisioned for this franchise."

**Stomp! Stomp! Rhinos!** aligns closely with **Edye's** mission to nurture curiosity, imagination, empathy, and joyful learning in young children — a series that has already proven strong global appeal, amassing 6 million YouTube views in under five months and earning a nomination for Best Kids Channel at the 2026 TellyCast Digital Video Awards. The agreement marks the series' official Spanish and Portuguese-language world premiere — bringing **Stomp! Stomp! Rhinos!** to millions of families across the US and Latin America for the first time.

**Edye** is a brand of **HITN**, an American non-profit TV network, dedicated to improving the lives of the community using cutting-edge technologies in its programming.
